SAFE STUDENT. SAFE CAMPUS.
Protect your student body with iWitness, the personal safety smartphone app that makes campuses safer.

iW

IWITNESS

PUTTING SAFETY IN THE HANDS OF EVERY STUDENT

How iWitness works - Any time a student feels threatened by a person or circumstance, iWitness does all of the following:

Captures audio and video

Tracks GPS location in real-time

Automatically dials 911

Emits light and sounds an alarm

Sends audio, video, and location encrypted to the cloud

Notifies trusted contacts

TOUCH SCREEN OR SHAKE TO CALL 911

STOP

●●○○○ AT&T 📶   10:21 PM   ✈ ⚡ 95% ▬

‹ Back   04:16   911 Now

iW IWITNESS

ALREADY AT WORK

" My goal is to ensure the safety of the Seattle University community not only when they are on the SU campus, but in their daily lives. iWitness is an additional tool that we are presenting to our community. While using the application can potentially serve as a preventive measure, we believe the very act of installing the application will serve as a catalyst for heightening a student's awareness. "

Tim Marron
Executive Director of Public Safety and Transportation
Seattle University

Give your students the one thing bad guys fear most – a witness to their actions. For more information, call us or visit iwitness.com.
